

Corey Hammond

Born and raised in Hastings, MI, I joined the Army in 1987 right out of high school and served for 4 years as a 96R (Ground Surveillance Systems Operator). I was responsible for detecting enemy movement using a ground based radar and ground base sensor system. After my first tour I left the Army and returned home to pursue a college degree. Realizing I missed the military lifestyle, I re-enlisted and served until I retired in 2011.

During that time I had duty assignments at Ft. Lewis, WA, Ft. Drum, NY, Schofield Barracks, HI and Ft. Hood, TX. I was deployed in support of Operation Uphold Democracy in Haiti and served on numerous training missions throughout the Pacific Rim and the United States. The Army selected me to be a Recruiter in June 2000 and I served my last 11 years in that role in Longview WA, Bend and Roseburg OR and finally Seattle WA.

My wife, Mindi, and I have been married for 8 years and have 2 kids Easton (7) and Emerson (5). I also have 2 kids from a previous marriage, Jarrod (17) and Amber (14). I enjoy all outdoor activities especially fishing and golf.

Like many of the Active Duty Service Members, I had never heard of US Family Health Plan. It wasn't until after I had retired and a friend referred me for the position of Field Representative that I learned about the program. I did my research for the job and discovered that not only would US Family Health Plan be a great place to work but it would be the best TRICARE option for my own family.

From my personal experience I can attest to the ease of getting health care under US Family Health Plan. My wife has had two surgeries while under USFHP and the whole process, from specialist referrals to the surgery and follow up appointments was seamless and very quick. Throughout the entire episode the US Family Health Plan staff was very professional, attentive and helpful.

I think it's great that military beneficiaries living in this area have more choices in TRICARE programs. I enjoy educating military beneficiaries about their TRICARE benefits and helping them make their health insurance decision.

Please feel free to contact me for a consultation or to attend a briefing on your TRICARE health insurance options.
